RECONCILING PLANETARY DIVERSITY THROUGH TRANSCULTURAL MANAGEMENT

GRIN Verlag Feb 2011, 2011. Taschenbuch. Book Condition: Neu. 210x148x2 mm. This item is printed on demand - Print on Demand Neuware - Essay from the year 2011 in the subject Cultural Studies - Miscellaneous, , course: Interkulturelles Management, language: English, abstract: The human, the physical as well as the consciousness cosmology are part of the totality of the universe. The Ancients have understood this principle and called it cosmos which means order. It is a hierarchical order, where the sun presides over the physical order in our solar system which in turn is hierarchically integrated in a galactic and those in turn in vaster systems. The various inner and outer cosmologies are part of the one life with its material and immaterial aspects and integrated, interdependent, hierarchical and synergistic order characterize it. This quality of order reigns between and within macro- and microcosmic planes. The continuity of them ensures the continuity of life. The biological, the physical and the consciousness cosmologies are diverse aspects of existence of life as a whole. In order to ensure the integrity of the planetary cosmology with its physical, biological and consciousness components cosmic order needs to be maintained. 36 pp. Englisch.
