The emergence and development of economic law is based on the emergence and development of economic relations. but the economic law as a science. it is gradually since the 20th century concern for people. China's legal regulation of economic relations can be traced back to very old. but the real learning to study the economic law. as. it is the last in the late 1970s have to do. This book is the application of economic law as a tutorial and presentation of subjects. so the theory of perspective from the study of economic law. will not appear. but its content in terms of logic and inclusive. then meet China's institutions of higher learning for the teaching needs of economic law. As the book is the latest use of the material as much as possible. therefore. the rule of law environment. the book is not just for the legal profession. is also widely used in economics. management theory and practice of worker self-reference. The book sub-series novel. it broke through the traditional classification of general textbook of economic law. the tutorial is divided into the basic theory of economic law. the legal system organization of market players. market players act the legal system. legal system. market order. the macro-control legal system. legal system. social security and economic disputes legal system. Sub-series from the novelty contained mainly reflected in the chapter. the main organization in the market. the legal system. we set up corporate law. partnership and sole proprietorship law. public enterprises. law. legal system and other economic organizations and other chapters. such put under the conditions of market economy. the basic...
