China's information industry in the late 20th century. rapid development. compared with developed countries. even compared with countries such as India. Ireland. there is a big gap. The international competitiveness of national information technology development speed and the information industry. and ultimately will depend on the quality and quantity of information science and technology talent. Excellent textbook for the introduction of foreign science and technology. taught in English or bilingual teaching in qualified schools to promote the carrying out. is an important measure taken by the Ministry of Education to expedite the training of a large number of high-quality IT talent. To this end. the Ministry of Education. first carry out the introduction of information science and technology textbook pilot project by the Higher Education Press. The proposed two requirements. it is necessary to a high level to low prices. Higher Education Press and Information

Reviews

I actually started looking over this publication. It really is rally interesting throgh studying period. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- Dana Hintz

Good electronic book and valuable one. It really is basic but unexpected situations in the 50 percent in the pdf. You wont really feel monotony at at any moment of your time (that's what catalogues are for concerning when you ask me).

-- Elisa Reinger
